DESIGNER / BUILDER:	Metalcraft Marine, Kingston, Ontario, Canada
OWNER/OPERATOR:	Tampa Fire Rescue, Tampa, FL, USA
HJ DISTRIBUTOR:	Jastram Technologies, St Catharines, Ontario, Canada

MANOEUVRABILITY

HIGH SPEED

SHALLOW DRAUGHT

Touted as the world's fastest fireboat in the +10,000gps size range. When fire fighting, power from the central engines is diverted to the fire pumps while the vessel manoeuvres on the outer waterjets. Its shallow draught allows the Firestorm 69 to travel across shallow areas to reduce time and distance to emergency situations.

No. 412
