

Topaz Zenith & Zephyr

SERVICE:	Crew / Supply Boat
LOCATION:	UAE & Qatar
LENGTH:	27.60 metres [LOA]
BEAM:	7.50 metres
DRAUGHT:	1.40 metres
CONSTRUCTION:	Aluminium
CAPACITY:	25 tonnes deck cargo 36/39 pax & 8 crew
SPEED:	30 knots
WATERJETTS:	Twin HamiltonJet Model HM651
ENGINES:	Twin Caterpillar C32 diesels - 1193kW (1600hp) @ 2100rpm
DESIGNER:	Incat Crowther, NSW, Australia
BUILDER:	Topaz Marine Engineering, Abu Dhabi, UAE
OWNER/OPERATOR:	Topaz Marine, Dhabi, UAE
HJ DISTRIBUTOR:	Exalto Emirates, Dubai, UAE

MANOEUVRABILITY

FLEXIBILITY

HIGH SPEED EFFICIENCY

Designed to support a variety of offshore energy installations, these two wavepiercing catamarans provide a 24 hour support platform. Twin waterjet propulsion enhances the vessels' capabilities in a range of duties, from crew and cargo transport to fire fighting and SAR.

(continued over page)

The HM651 waterjets also provide outstanding manoeuvrability and safety during crew transfers from the bow and cargo transfers from the 50m² rear deck. Having the waterjets wide-spaced in a catamaran hull enhances vessel control at low speeds, allowing the skipper to easily counteract the sideways force of wind and thrust from the fire monitor mounted at the bow.
